**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 31 October 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

**DETAILED ACTION**

***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-3, 5, 6, 11, 12 and 14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Quinn et al. (5,582,324) in view of Hayes (5,083,671).

Quinn et al. disclose a closure having a skirt 16, a lid 18, a hinge 66 and a latch substantially as claimed (see the previous office action dated 6/2/05), except Quinn et al. does not disclose the hinge connecting the upper surface of the skirt along an interior edge of the skirt and the top surface of the lid, and the hinge having a length between the upper surface of the skirt and the top surface of lid which is substantially coplanar with the upper surface of the skirt and the top surface of the lid when the lid is in the closed position.

Hayes discloses, in figs. 1 and 4, a closure comprising a skirt 73, a lid 77, a hinge 78 and a latch 80, the hinge connecting the upper surface of the skirt along an interior edge of the skirt and the top surface of the lid, and the hinge having a length between the upper surface of the skirt and the top surface of lid which is substantially coplanar with the upper surface of the skirt and the top surface of the lid when the lid is in the closed position.

Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to make the closure of Quinn et al. with a hinge as taught by Hayes et al. in order to facilitate of biasing of the hinge in a bi-stable living hinge.

Quinn et al. also disclose the closure for closing a container 10 having a neck 11. It is obvious to have the neck in the Quinn et al. container position within the groove 34 of the gasket 38 (see figs. 4 and 5) and defining an opening that the closure opening 26 is at least equal to the opening of the container.

### ***Response to Arguments***

3. Applicant's arguments with respect to claims 1-3, 5, 6, 11,12 and 14 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3754

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
